WHY DR. JOHNSON

Most CEU instructors hold one or two of the credentials hospitals look for. Dr. Johnson holds the full set: **a doctorate in nursing, four decades of bedside and academic teaching, AWHONN Instructor-Trainer status for both Intermediate and Advanced Fetal Monitoring since 1997, and peer-reviewed publication in JOGNN.** She doesn't lecture from a textbook — she lectures from the unit, from forty-five years of births, complications, and the conversations that follow.

SIGNATURE TRAINING TOPICS

High-Risk Obstetrics & Fetal Monitoring

Intermediate and Advanced Fetal Monitoring courses through AWHONN Instructor-Trainer credential.

Best for: Hospitals, AWHONN chapters

Women's Heart Health & Know Your Numbers

Long-running collaboration with the AHA Go Red campaign on cardiovascular risk in women.

Best for: Community, corporate, churches

Pregnancy Loss, Grief & Bereavement Care

Drawn from her dissertation research and JOGNN publication on bereavement intervention.

Best for: Hospitals, support orgs, clergy

Nursing Leadership, Vigilance & Civility

Building a culture of safety and respect on the unit. A perennial Nurses Week favorite.

Best for: Hospital in-services, leadership

African American Women's Health & Implicit Bias

Maternal mortality, healthcare disparities, and culturally responsive care.

Best for: Conferences, nursing schools

Health & Humor

Her signature talk — making clinical truth land through laughter. Adaptable to any audience.

Best for: Conferences, women's events
